NuTecSol

WATER BASED ACRYLIC COATING  
FOR INTERIOR SURFACE.

Unika Paints Splendor is the perfect way to make a smart upgrade from distempers. It offers the finish of plastic paint, at a cost that is not too different from distemper. It gives 1.5 times the coverage of distemper, so you need less material. It also lasts for at least 3 - 4 years.

#### BENEFITS:

- Provides high quality smooth finish and colour coating for Interior walls
- Makes brighter, clean shades that will not lose properties for long time
- Excellent classy finish to make walls beautiful
- Better coverage and smoothness guaranteed at every time of application with superior finish.
- Long lasting film that keeps your house as good as new for a long time.
- Resistance to fungus attack
- Perfect value for money

GRADES  
AVAILABLE:

PREMIUM  
SUPREME  
ULTRA

## COVERAGE

On normal masonry surface after brushing

**1 COAT**  
250 - 270 sq.ft/ltr\*\*

**2 COAT**  
130 - 150 sq.ft/ltr\*\*

\*\*Actual coverage may vary from the quoted coverage due to factors such as method and condition of application and surface roughness and porosity.

## HOW TO APPLY

**Clean the surface thoroughly with water & remove the flakes of old paints or lime wash**

**Apply 2 coats of Splendor on surface previously applied with wall primer. A gap of 4 to 6 hrs should be given between the coats. If necessary, third coat should be applied for good quality**

**Dilute Splendor up to 20% with water and mix thoroughly**
