# Spray Plast

READY MIX MORTAR.

Manufactured with high quality materials that gives

## BEST RESULT IN

**MASONRY**

Clay/Fly ash bricks, Solid/Hollow Blocks, AAC Blocks

**PLASTERING**

**PATCHING**

### BENEFITS

- Easy to use
- Fibre reinforced
- Higher binding capacity
- Durable finish
- Increase water retention
- Less curing required
- Provide ultimate strength
- Super elasticity to bound all materials
- Smooth plaster which spread uniformly
- Reduce wastage
- Improved labour productivity hence reduce cost
- Increase life span
- Less chance of crack development

## DIRECTION FOR USE:

Clean the surface from oil, dust, bond inhibiting agents

Add water approximately 15 to 17 ltrs. per bag

Mix mortar properly for better result

Wait 2 to 3 min. to dissolve the additives

Curing after 24 hours, 2 minutes per day for 5 days

NuTec Spray Plast ready mix plaster is a polymer modified ready to use plaster made of selected raw materials and graded fillers. Designed for use with water to produce superior strength, it is a water retaining and less curing plaster that meets and exceeds the requirement of national standards.

## OUTPUT PER 40kg BAGS

Each 40 kg. bag gives 16 to 17sq. ft coverage of 10mm to 12mm thickness for plastering in good level bricks or block masonry surface.
